12:30 AM

Whining, took out
12:30, #1

6pm potty accident in family room
after kids rough housing, also saw
water left down. Took out right away

NOTES ON SUCCESSES AND MISTAKES TODAY:

The morning went pretty well. The afternoon went well until later in the afternoon and at night. I made some mistakes regarding allowing the kids to play with the puppy and not watching. Also left the water down after dinner. He seems to have more issues later in the day

THINGS I WILL CHANGE FOR TOMORROW:

I will move the morning "after breakfast" outing a little later. Watch the kids better and make sure I pick up the water. I will see if that fixes the PM mistakes tomorrow. I will also feed a little more in the morning and less in the afternoon. I have to REALLY WATCH when the kids come home
